

Dalsey Adaptives, LLC - CUSTOMER FEEDBACK

- *"This device is instrumental to my wellness and helping me have a normal day. With much appreciation."* (Michelle S. , Peabody, MA, January 5, 2016)
- *"This item is a life saver for me! I know there are many reasons for using it but for me it was that I need both hands to open my eye to put the lens in. I'm so glad my doctor at Mayo in MN recommended it for me"* (Pat G., Cornelius, NC, March 12, 2015)
- *"I had given up on sclerals because of the difficulty in inserting the lens. My doctor had me try the device in his office and I am ecstatic as I can now wear sclerals again"*. (Patrick M., Houston, TX February 7, 2015)
- About our custom bright light adaptation: *We "pulled off a miracle for our patient who is blind in one eye and near blind in the other and needs to wear a scleral lens"*. (Dr. Edward Boshnick, Miami, Florida 2-3-15)
- *"Very difficult to insert without it. . Wonderful creation. . . cant thank you enough"*
• (Martha P., Medford, MA Aug. 25, 2014)
- *"Thank you for this product, it saved my wife's life"* (Wes T. Rochester, MN Jan. 17, 2014)
- *"Thank you for these fabulous products"* (Dr. David Sweeney, Atlanta, GA, June 20, 2013)
- *"I don't know what I would do without it" "I just love it" "I wouldn't even try to put my lens in without it"* (Trudy P, Corona, CA - Dec. 20, 2013)
- *The See Green Lens inserter is a life saver. I no longer have to have a caretaker to come every day to help put in my lenses.* (Terry R., Woodland Hills, CA - June 26, 2013,)
- *It has always been difficult for me on the insertion because of the way I was taught and because I have small very dry eyes (Sjogrens Syndrome) When I got my new LED green light from you a few weeks ago, I noticed you redesigned the green light package. I took the time to carefully read your insertion instructions and I was thrilled to be able to insert my BOSP lenses in seconds! Thank, thank you and bless you for your part of these marvelous products and you perfect instructions on the insertion.* (Virginia O., Parlin, NJ - Nov. 20, 2013)
- *Thanks again so much and please keep me apprised of any further inventions and innovations you come up with. I truly believe I would not wear my sclerals as much as I*

do if it was not for your amazing invention which is sooooo much easier than the traditional way of inserting sclerals. Cheers, (Jeff F., Lake Elsinore, CA - April 11, 2013)

- *The See Green Lens Inserter made an enormous difference in my husband's life. We are very, very appreciative!! Caryn M., Great Neck, NY – (Nov. 8, 2013)*
- *Thank you for sending me my Dalsey Adaptives device. Your inventions are amazing. You have opened up a whole world of sight for my life. Thank you again! (Joan F., Worcester MA - August 11, 2013)*
- *Thank you. The light is a life saver for me as are the scleral lenses. I am lost without the light. Sincerely, (Mary D., Pembroke, MA - August 11, 2010)*
- *What a wonderful device. I can't imagine inserting the lens without the light. Thank you for making it available for us. (Carolyn L., Mission Viejo, CA - February, 2009)*
- *I cannot insert my lens very easily without the light. I love it! (Patricia S., Deerfield, MI - June, 2009)*
